PRINCE ALBERT, SEPT. 17, 1897

It is reported that Lieut. Governor Chapleau of Quebec, said that he often wished that Sir John Macdonald was still at the head of the party, as if he were the Manitoba school difficulty would have been settled long ago We believe that there is hardly a Conservative in the whole Dominion but would heartily endorse the same wish of Governor Chapleau. But wishes of this kind are not likely to be realized; but we do wish that this serious difficulty was arranged in some manner creditable to both parties in the contest; that is wishout enerolaching one lots on Manitoba's undoubted right in what she has done in the way of setting her oducational matters, on a basis giving equal facilities for sound and useful construction without infringing on the consciences of any midvidual; while on the other hand not lowering the prestige of the Conservative party by endeavoring to force remedial legislation on a people which will be pretty hard to conce We cannot have Sir John Macdonald again at he head of affairs and it is little use in spending time in wishing far that which is impossible; but it does look as if we wanted a leader to pull us out of the mess we are now seemingly drifting and floundering into.

The first bye-election in the United Kinedom has resulted in the return It is reported that Lieut. Govern

and floundering into.

The first bye-election in the United Kingdom has resulted in the return of Mr. William Kenuy, the Irish solic into-general, for the St. Stephen's Green division of Dablin. The outcome was expected or Mr. Kenny would not have accepted office. The only interest in the event is in the fact that the Nationalists put up a candidate against him who lost votes, compared with the result at the general election, in rather higher proportion than did Mr. Kenny. If, like other British governments, that callord Salisbury began to die when it was born, the Opposition has not sefar gained any fat out of the process.

Mr. John Morley, under secretary for Ireland in the Rosebery Govern ment and a defeated candidate at the general election, is said to be engaged and the Times newspa writing a history of the century In the opinion of many who are qual-ified to judge, Mr. Morley is better fitted for the study than for the plat-form or the House of Commons, and in literary circles there will be general rejoicing that he has given up th-task of making history for the easier one of writing it.

In the English Trades and Labor

In the English Trades and Labor congress the resolution consuring the Parliamentary committee for taking steps to ous; the Socialist element was defeated by a vote representing 357, 600 members. The collectives, by this guage, would represent only slightly more than half of the organized workmen; yet they have at recent congresses controlled the meeting and framed the resolutions. A clamorous minority in modern days is often more effective than a sensible majority.

The [chees tourney completed on Monday at Hastings, England, is the most important ever sheld in the history of the historic game. Twenty two of the greatest masters completed, and the first prize has been wen by an American lad only twenty-three vears of age. It is only seven years since Pillabary learned the rudinents of the game, bat he has proved an apt pupil, and now occupies a worth y place in the very four rank of the masters of the most profoundly intellectual of all amusements.

the most profoundly intellectual of all amusements.

When the hig crop of 1887 was inavested in Manitoba difficulty was experienced in housing the grain owing to inadequate storage capacity, considerable loss was entailed in consequence. This year no apprehension on that score is felt. The Canadian Pacific company has a greatly enlarged equipment, and increased elevator capacity within the province for 12,600,003 tushels.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the Family Heralda and Weckly Star, Montreal. The Family, Heraldi's a great newspaper and a great painty paper, but it is more than that, it is one of the greatest authorities in the world on choese, butter, general dairying, and general faming. How a progressive, upto-date farmer can do without the Family Herald and Weckly Star of Montreal is hard, indeed, to understand.
